REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 30 and 31 are allowed and renumbered to claims 1 and 2.

Laden et al. (WO 01/85103 A) teach anhydrous skin cleansers comprising water-immiscible emollient oil; oil-gelling agent; and emulsifying agent that forms an emulsion in situ on the skin when the skin cleanser is contacted. See abstract. The reference generally teaches the types of the emollient oils, emulsifying agents, and the oil-gelling agents that may be used in the prior art invention. See p.7, line 11 – p. 8, line 13; p. 11, lines 1 –18; p. 8, line 14 – p. 9, line 7. While Example 1 discloses a formula comprising 2.1 % glyceryl stearate and 2.1% PEG-100 stearate, 60.9 % mineral oil, and 4 % fumed silica, there is no specific teaching on the other components of instant claims 30 or 31. Although those components are known ingredients in cosmetic art, there is no teaching or suggestion to pick these specific ingredients in the recited amounts in a single composition as required by applicants. Due to the specificity of the limitations of the instant claims, the present invention is viewed nonobvious and patentable over the cited prior arts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gina C. Yu whose telephone number is 571-272-8605.
